

Actolind® w Solution - Gel

Wound Irrigation, Cleaning, Moisturizing and Care Products

You are in Expert Hands with 30 Years of Experience in Wound Care

Polyhexanide  **Poloxamer**

It accelerates the healing of wounds and burns

► **Your best choice for wound care**

- It accelerates wound and burn healing by cleaning mechanically
- Cleansing, moistening and decontamination of wounds
- Convenient and painless cleaning
- Removes scabs, necrotic tissues and biofilm layers from wounds effectively
- Does not inhibit granulation or epithelialization
- Suitable for antiseptic cleansing, softening and removal of encrusted dressing materials without causing a secondary trauma
- Highly effective against multidrug-resistant organisms (MRSA, VRE) and mycotic pathogens (*C. albicans*)
- Dermatologically tested and rated as "excellent"
- Biocompatible
- Well tolerated

dermatest-garantie.de
